

# *Educators and the Erie Canal – 2006*

## **Exploring the Link between Invasive Species and the Canal**

*The Erie Canal has historically played an important role in the introduction of invasive (exotic) plants and animals into and between the Great Lakes, Hudson River, and the Finger Lakes watersheds. Learn about the Erie Canal and invasive species and how you and your students can help prevent their introduction and spread.*

**A one-day workshop for 4<sup>th</sup> through 12<sup>th</sup> Grade Teachers**

**Sponsored by US Fish and Wildlife, NY Sea Grant, Great Lakes Program  
Formal and Non-Formal Educators Welcome!**

**Workshop is Being Offered at 2 Different Locations Along the Canal  
(Space is Limited – Participants can only register for one location)**

**Lockport – Tuesday, July 25 (Includes a boat tour of the canal) - 10:00-3:00**

**Montezuma National Wildlife Refuge – Wednesday, August 23 – 10:00-3:00**

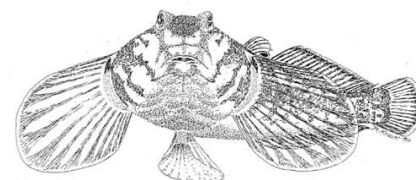

**Come join us for hands-on activities and a demonstration of biological sampling techniques that could be used with your students for a monitoring program.**

**Classroom materials and lunch provided – FREE\***

**Please note:** \* A cancellation fee of \$15 will be charged for those registering and not attending.
