

EDUCATOR WORKSHOP

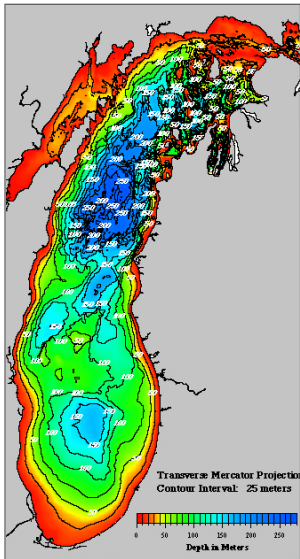

Inspire Great Lakes Stewardship! Help Your Students Protect their Watershed

November 9-10, 2012

John G. Shedd Aquarium, Chicago, Illinois

National Park Service, Indiana Dunes National Lakeshore, Porter, Indiana

Coordinated by the Illinois-Indiana Sea Grant Program and the Center for Great Lakes Literacy

- ✚ Help to create a Great Lakes stewardship ethic in your students and local community that will help protect and restore coastal areas in the Lake Michigan watershed.
- ✚ Inspire your students with engaging science-based activities and field experiences.

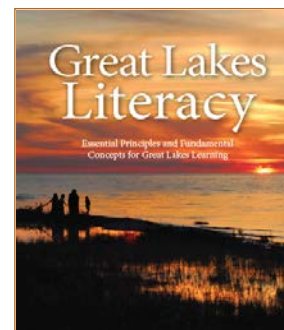

LEARNING OBJECTIVES

Educators and scientists with the Illinois-Indiana Sea Grant Program, Shedd Aquarium, Indiana Dunes National Lakeshore, and Alliance for the Great Lakes will offer participants:

- Science-based content to foster understanding about land-lake linkages
- An improved awareness and understanding about the importance of protecting and sustaining Great Lakes watersheds
- Field-based experiences in wetland and water quality monitoring, invasive species removal, and other restoration and stewardship activities
- Curriculum activities that broaden understanding of the Great Lakes
- Assistance in facilitating student-based stewardship projects to improve Great Lakes Literacy, resulting in citizen action

WORKSHOP SUPPORT

- A stipend to develop a classroom community stewardship project
- Funding for bus transportation to give your students an outdoor watershed field experience
- One night's lodging (optional)
- Bus transportation to Porter, IN on November 10th

Applications due no later than October 17, 2012.
